HISTORIC CAPTAIN'S HOUSE SAG HARBOR, NY

For this 1850s renovation of a historic Captain's house, we envisioned a worldly ship captain coming home after years of collecting and traveling. The custom furniture is period, personal and modern in interpretation. While respecting the local vernacular, we added large family areas by raising the house on a stone wall plinth, excavating a cavernous basement recreation center and attaching a double-height kitchen addition. Included was a renovation of pond guest cottage and a large undulating retaining wall to counter the steep slope to the water's edge.
