## CAMPIONPLATT

MURRAY HILL TOWNHOUSE · NEW YORK, NY

To fulfill the client's program, it was necessary to totally transform the circulation for this townhouse with a garden. The Main "gallery" was organized around an "L" shaped garden and kitchen lounge. Each room was created with a distinct atmosphere. The main "salon" is a study in eclectic inspiration centered on an 1800's French settee. The minimalist detailing provides a neutral background to the client's extensive art collection.
