

MODERN LANDSCAPE

## CAMPIONPLATT

### MODERN LANDSCAPE

POUND RIDGE, NY

For this real estate executive and art collecting wife, we made substantial additions to their modernist house in upstate New York. Expanding the house with a new guest wing, garage and pool house, we sculpted the buildings to the hilly landscape echoing the framed language of the existing house while inventing new details to weave the two together. For the interior we freshened each room with bold and rich colors to marry the vibrant foliage and plantings that surround the house to the eclectic art collection that hangs within.
